

Light the Tree

Light the tree, friends and dear ones will
Love to see, they will thrill to the sights and the
Sounds of the city, it's Christmas time in our town.
(Christmas is here) Christmas is here!

Light the tree, come together with family,
There's wonder and magic to see
In our city, it's Christmas time in our town.

The faces of the children glow brightly,
Reflecting excitement,
And longing for the day to draw near....

See the child in the faces of those who are older,
Who otherwise, world-weary tread through their lives.

Take the hand, of the children
Recall a time, of joy and contentment
You'll find, in the city,
When it's Christmas time in our town,
Christmas time in our town.
