

Appendix 3

TREE ASSET MANAGEMENT PROGRAM

Report:

It is the intention that the Tree Asset Management Program, in combination with the Tree Inspection Work Instruction provides the Organisation with auditable evidence based processes that demonstrates and documents industry best practice tree management.

Tree Asset Management Program by zone:

- 17 Zones within CoGB have been created to simplify management of the 100,000 tree assets.
- Each tree within the 12 'Urban' Zones is formally inspected and pruned every 4 years.
- Each of the 12 'Urban' Zones receive just powerline clearance pruning every 2 alternate years.
- Each of the 5 'Rural' Zones is serviced every 5 years, with no powerline clearance obligation.

Tree Asset Management Program – Year 1 (2019/20)

Table 1

Zone	Works Required	Number of Trees	Anticipated Cost \$
1 Urban – Bendigo	Proactive – Urban	6,400	
2 Urban - CBD & Major Parks	Proactive – Urban	3,300	
6 Urban – Flora Hill & Spring Gully	Proactive – Urban	8,600	
16 Rural – Strathfieldsaye & Junortoun	Proactive – Rural	3,300	
7 Urban – Golden Sq & Golden Gully	Powerlines	3,100 of 8,000	
9 Urban – Kangaroo Flat	Powerlines	3,000 of 8,000	
10 Urban – Kennington	Powerlines	2,500 of 5,400	
Total:			

Tree Asset Management Program – Year 2 (2020/21)

Table 2

Zone	Works Required	Number of Trees	Anticipated Cost \$
2 Urban - CBD & Major Parks	Proactive – Urban	3,300	
4 Urban – East Bendigo & Ascot	Proactive – Urban	5,500
